Dear Powers that Be at the FCC:

I am enraged that you are contemplating allowing the monopolists at the NAB to dictate what I LISTEN TO! Especially when I'm paying to listen to local weather and traffic news on XM Satellite Radio. If XM's competition offered better listening choices in my area, I'd probably pay for their services, but they choose not to improve. I urge you to be pro-consumer rather than pro-big business, and reject the NAB's petition 04-160.

Sincerely,

Kelley Harrell
